Agreement for Facility Use and General Regulations – Facility Permit, Page Two

All community use of school facilities is to be arranged with the understanding that it should not result in excessive heating or cooling costs as related to energy demand above and beyond normal operations.

1. Activities officially sponsored by the Oak Ridge Schools shall have first priority on the use of school facilities. Second consideration will be given to local non-profit organizations who have documented 501(3)(C) status. All other request will be processed in the order in which they were received. Any scheduling conflicts will be resolved by the School Principal and Superintendent of Schools or his designee. Community use shall be scheduled at a time and in a manner that does not interfere with other school use.
2. When a scheduling conflict occurs between local non-profit organizations due to multiple non-school requests to use a school facility, only one request, per community group or organization, will be honored in an effort to support all community organizations and groups.
3. Community use of facilities shall not be scheduled while school is in session, except in special circumstances approved by the School Principal and Superintendent of Schools or his designee.
4. Determination of who may use school facilities and the specific charges to be made rests with officials of the Oak Ridge Schools.
5. Outside groups using school facilities are responsible for proper supervision of their activities, for observance of all fire and safety regulations, for adequate police protection, and for payment for any damage to school property through their use. The Board of Education accepts no responsibility for loss of personal property or liability for injury to persons or property involved in community use of school facilities.
6. All functions shall end no later than 9:00 p.m. and all occupants must be out of the building by 10:00 p.m., unless special permission is granted.
7. The school system reserves the right to cancel community use without liability to the Board of Education.
8. Organizations which find it necessary to cancel permits must notify the proper representative in the office where the Permit was obtained (Office of Maintenance and Operations) IN WRITING seventy-two (72) hours in advance or forfeit charges.
9. Alterations to school facilities – including attaching of decorations and displays to walls, floors and equipment – are prohibited, unless special permission has been secured. Also prohibited are: construction on school property and installation of special service facilities (electrical lighting, etc.). In all instances where special permission is granted, work must be approved by the maintenance Supervisor of the Oak Ridge Schools.
10. A community group may request permission to have a licensed contractor make a temporary change to a school facility. Such requests must be made in writing and provide a clear explanation of the requested facility change. The following conditions must be met:
 - A. A written explanation of the requested alteration.
 - B. The name of the licensed contractor or company that will perform the requested alteration, as well as the company's proof of licensure and insurance to cover potential damage.
 - C. The name of the community group that is requesting and taking financial responsibility for the requested alteration or potential damage.
 - D. Written documentation that the requested temporary alteration will not damage the facility.

12. The use of tobacco products of any kind, alcoholic beverages, drugs, profane language, or gambling in any form is not permitted on school property.
13. No groups using auditoriums will be permitted to sell refreshments (soft drinks, candy, popcorn, etc.) in the auditorium.
14. Permission for church use of school facilities to conduct religious services shall be granted only in emergency and special situations and on a temporary basis. All such uses will be at Class III rates.
15. No meeting shall be held in a school building for purposes of advancing any doctrine or theory subversive to the State of Tennessee or the United States of America or for the purpose of advocating or inciting violence.
16. The Board of Education prohibits Class I use of school facilities for youth social clubs or youth groups which are not organized under regular and continuing adult supervision or any school group that proposes to use facilities for the express purpose of raising funds for non-school, personal purposes, or individual gain; however this regulation does not expressly forbid use by such groups under Classifications II and III.
17. (Anytime *beginning* after 9:00 PM) No non-school group using such facilities may do so on a permanent basis (that

is, every Tuesday night); however, this should not be interpreted to eliminate the granting of permits for use on several consecutive nights.

18. Permission to use dressing rooms, ticket office, projection booth and special equipment shall be obtained at the time space is reserved. Access to such facilities may require additional cost.
19. Class III groups, as well as other groups when deemed required will be required to pay utility recovery costs at a rate of \$20.00, \$15.00, or \$10.00 per hour based on the building requested when renting on a weekend or outside building hours.
