

Special Education

Oak Ridge Schools has been awarded a grant by the Tennessee Department of Human Resources. This grant will provide three (3) full time employees for a transition school to work program for 14-22 year old students with disabilities. These positions will strengthen our community presence to ensure that more students are life ready and have career options.

Coordinated School Health

Coordinated School Health will be having a competition between schools to win the ORS Wellness Cup. These activities will be geared toward improving staff physical and mental well-being to help reduce stress and continue to do their jobs well. Each school will earn points based on participation in wellness activities and games throughout the year, including activities like a staff volleyball and softball game, disc golf, walking challenges and Wellness BINGO.

Glenwood

Glenwood Elementary received a donation of 10 iPads from iB3 Global Solutions. The iPads will be used in the CDC classroom to assist students with learning needs. Glenwood TA Ms. Sharon Gleason coordinated arrangements for this donation.

District-wide

We are pleased to announce that we are now providing COVID-19 testing for students and staff. As of Wednesday, August 18, 2021, we have conducted 598 tests and 90% have been negative. We are appreciative of the great job that our school nurses are doing to provide this service to keep our students and staff healthy and safe.

RMS

The RamSat team is pleased to announce that on Sunday, August 15 they were able to download the first images from space. This first image was mostly clouds, but they couldn't be happier. The image is in focus, and lets them know there has been no damage to the camera system during launch or from the harsh environment of space. They look forward to downloading more images of the successful mission.
