

Setting Adobe Reader as your Default:

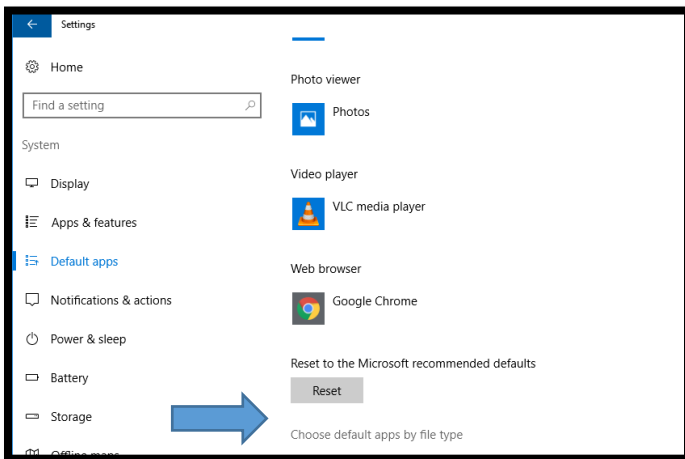

1. Click on the Windows Button and click on Settings.

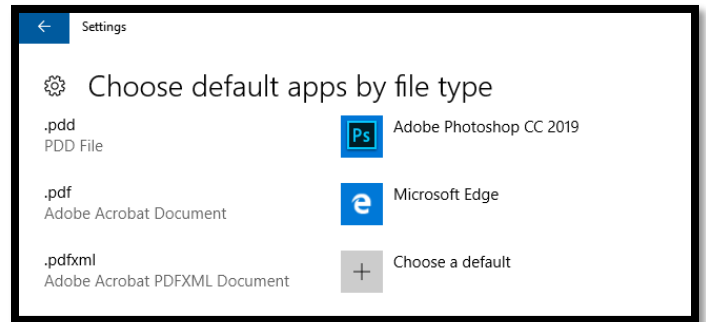

2. Then click on Systems.

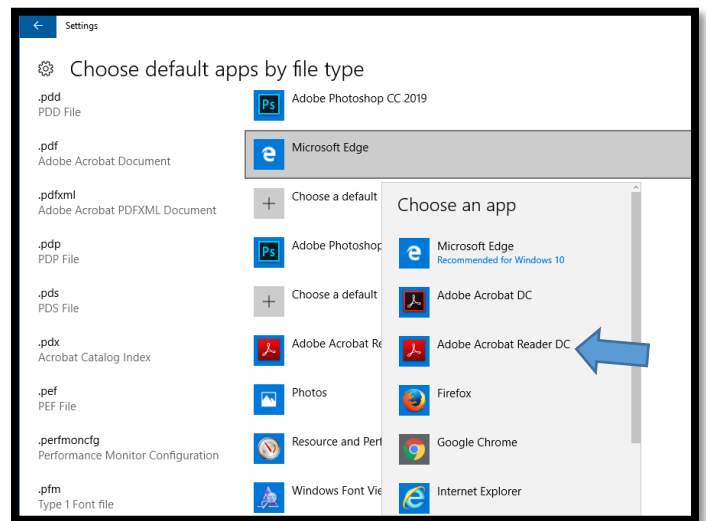

3. Then click on Default Apps. Then scroll down and click on Choose Default Apps by File Type

4. Scroll all the way down until you see .pdf

5. Click on the Microsoft Edge Icon and then choose the Adobe Acrobat Reader DC.

That is it! You have set Adobe Acrobat Reader to your default Application. You can close out the Settings Window. Now when you open a PDF, it should open in Adobe Acrobat Reader.
