

Checking your Chrome Sync Status

When you open your Chrome browser, you should see your account in the top right corner.

If you don't see your name here OR it says paused, click on your name to see this screen:

Make sure it says Sync is On. If it doesn't, sign in! Our ORTN Google accounts are managed by the Technology Department and enables easy access to many of our online programs, so it is very important that you STAY signed into your Chrome browser with your ORTN account.
