

Reading Schedule – AP Psychology w/ Jarnigan, 2016-2017

The following reading schedule should be seen as extremely tentative and subject to change based on student feedback and progress, teacher discretion or error, any needed reteaching, or unexpected absences from school such as snow days (of which there were 8 in two weeks a few years ago – yeesh!) Still, the following schedule should help you plot out your reading. We will read the entire book, though not in chapter order. If you have any extended absence or plan on being out, use the schedule to do everything you can to keep up with the reading.

8/1 – 8/3 Introduction to class

8/4 – 8/10 I. History and Approaches Prologue (1-15)
